

2024 SCCS Conference

26 - 28 March 2024

Department of Zoology, University of Cambridge & live-streamed worldwide

Building links among early career conservation scientists and practitioners

In-person applications close

6 SEPTEMBER 2023

www.sccs-cam.org

SCCS is aimed at early-career researchers working in university departments, conservation organisations and resource management agencies. Approximately 180 postgraduate students (and similar-stage researchers) attend the conference each year, from a broad range of disciplines in conservation, including ecology, genetics, geography, economics and psychology.

Plenary speakers

Julia Jones
Bangor University

Jon Paul Rodriguez
IUCN

Lian Pin Koh
National University of Singapore

Rachael Garrett
University of Cambridge

Your role in the Conference

The three-day event consists of around 30 short talks and 100 posters presented by early-career researchers. Presentations on economic and social as well as biological aspects of conservation are welcome.

Prizes are awarded for outstanding talks and posters.

We offer a dynamic programme of workshops to help learn new skills. Social events provide lots of opportunities to network with others.

Come and join the SCCS community, share ideas and make new friends.

Conference costs

The in-person conference fee (incl. meals, drinks and carbon offset) is £110. Accommodation including breakfast for a limited number of delegates is available in a nearby college.

Bursaries

SCCS provides travel bursaries for the strongest students from developing countries and eastern Europe.

For those who can't attend in-person, we will be offering free live-streaming of all the talks. Keep an eye on our website www.sccs-cam.org for more details.
